## **ICF-based Documentation Form**

Reminder: The categories of the Generic Set are indicated by the letter (G).

PATIENT INFORMATION			

BODY F	FUNCTIONS			ŧ		i i			
Physiological functions of body systems (including psychological functions)			Mild impairment	Moderate impairment	Severe impairment	Complete impairment	Not specified	applicable	
How mu	ch impairment does the person have in	No impairment	Mildi	Mode	Sever	Comp	Not sp	Not ap	
		0	1	2	3	4	8	9	
b110	Consciousness functions								
	General mental functions of the state of awareness and alertness, including the clarity and continuity of the wakeful state.  Inclusions: functions of the state, continuity and quality of consciousness; loss of consciousness, coma, vegetative states, fugues, trance states, possession states, drug-induced altered consciousness, delirium, stupor  Exclusions: orientation functions (b114); energy and drive functions (b130); sleep functions (b134)								
	Sources of information:  Case history Patient reported questionnaire Clinic	al exami	nation		☐ Tech	nical inv	estigatio	on	
	Description of the problem:	_			_				
		0	1	2	3	4	8	9	
b130	Energy and drive functions (G)								
	General mental functions of physiological and psychological mechanisms that cause the individual to move towards satisfying specific needs and general goals in a persistent manner.  Inclusions: functions of energy level, motivation, appetite, craving (including craving for substances that can be abused) and impulse control  Exclusions: consciousness functions (b110); temperament and personality functions (b126); sleep functions (b134); psychomotor functions (b147); emotional functions (b152)  Sources of information:  Case history Patient reported questionnaire Clinical examination Technical investigation								
	Description of the problem:								
		0	1	2	3	4	8	9	
b140	Attention functions								
	Specific mental functions of focusing on an external stimulus or internal experience for the required period of time.  Inclusions: functions of sustaining attention, shifting attention, dividing attention, sharing attention; concentration; distractibility  Exclusions: consciousness functions (b110); energy and drive functions (b130); sleep functions (b134); memory functions (b144); psychomotor functions (b147); perceptual functions (b156)  Sources of information:  Case history Patient reported questionnaire Clinical examination Technical investigation  Description of the problem:								
	_ · · · · ·	0	1	2	3	4	8	9	
b144	Memory functions	I		П	П	П	П		
	Specific mental functions of registering and storing information and retrieving it as needed.  Inclusions: functions of short-term and long-term memory, immediate, recent and remote memory; memory span; retrieval of memory; remembering; functions used in recalling and learning, such as in nominal, selective and dissociative amnesia  Exclusions: consciousness functions (b110); orientation functions (b114); intellectual functions (b117); attention functions (b140); perceptual functions (b156); thought functions (b160); higher-level cognitive functions (b164); mental functions of language (b167); calculation functions (b172)  Sources of information:  Case history Patient reported questionnaire Clinical examination Technical investigation  Description of the problem:								
L450	Employed formation a (2)		1	2	3	4	8	9	
b152	Emotional functions (G)						Ш		
	Specific mental functions related to the feeling and affective components Inclusions: functions of appropriateness of emotion, regulation and range of enhate, tension, anxiety, joy, sorrow; lability of emotion; flattening of affect Exclusions: temperament and personality functions (b126); energy and drive for Sources of information:	notion; af	fect; sad			s, love, f	ear, anç	ger,	
	Case history Patient reported questionnaire Clinical examination Technical investigation  Description of the problem:							on	

		0	1	2	3	4	8	9				
b164	Higher-level cognitive functions											
	Specific mental functions especially dependent on the frontal lobes of the brain, including complex goal-directed behaviours											
	such as decision-making, abstract thinking, planning and carrying out plans, mental flexibility, and deciding which											
	behaviours are appropriate under what circumstances; often called executive functions.											
	Inclusions: functions of abstraction and organization of ideas; time management, insight and judgement; concept formation,											
	categorization and cognitive flexibility											
	Exclusions: memory functions (b144); thought functions (b160); mental function	ns of lan	guage (b	167); ca	alculation	n functio	ns (b17	2)				
	Sources of information:  Case history Patient reported questionnaire Clinical examination Technical investigation											
	Description of the problem:		-					-				
		0	1	2	3	4	8	9				
b280	Sensation of pain (G)											
	Sensation of unpleasant feeling indicating potential or actual damage to	some bo	dy stru	cture.			•					
	Inclusions: sensations of generalized or localized pain in one or more body par	t, pain in	a derma	atome, s	tabbing	pain, bu	ırning pa	ain, dull				
	pain, aching pain; impairments such as myalgia, analgesia and hyperalgesia
