ICF-based Documentation Form

Reminder: The categories of the Generic Set are indicated by the letter (G).

PATIENT INFORMATION		

BODY FU	NCTIONS			ju t		ant			
	If functions of body systems (including psychological functions) impairment does the person have in	No impairment	Mild impairment	Moderate impairment	Severe impairment	Complete impairment	Not specified	Not applicable	
		0	1	2	ν	4	8	9	
	I		H		\vdash	_	ĥ	ı,	
b130	Energy and drive functions (G)		ᄔ		Ш		Щ	Ш	
	General mental functions of physiological and psychological mechanisms that cause the individual to move towards satisfying specific needs and general goals in a persistent manner. Inclusions: functions of energy level, motivation, appetite, craving (including craving for substances that can be abused) and impulse control Exclusions: consciousness functions (b110); temperament and personality functions (b126); sleep functions (b134); psychomotor functions (b147); emotional functions (b152) Sources of information: Case history Patient reported questionnaire Clinical examination Technical investigation Description of the problem:								
		0	1	2	3	4	8	9	
b134	Sleep functions								
	General mental functions of periodic, reversible and selective physical and mental disengagement from one's immediate environment accompanied by characteristic physiological changes. Inclusions: functions of amount of sleeping, and onset, maintenance and quality of sleep; functions involving the sleep cycle, such as in insomnia, hypersomnia and narcolepsy Exclusions: consciousness functions (b110); energy and drive functions (b130); attention functions (b140); psychomotor functions (b147) Sources of information: Case history Patient reported questionnaire Clinical examination Technical investigation Description of the problem:								
b152	Emotional functions (G)								
	Specific mental functions related to the feeling and affective components Inclusions: functions of appropriateness of emotion, regulation and range of em hate, tension, anxiety, joy, sorrow; lability of emotion; flattening of affect Exclusions: temperament and personality functions (b126); energy and drive fu Sources of information: Case history Patient reported questionnaire Clinical Description of the problem:	nction;	affect; sa		appines		estigatio		
b1522	Range of emotion	П		П	П		П		
	Mental functions that produce the spectrum of experience of arousal of at sorrow, joy, fear and anger. Sources of information:		feelings	s such a			xiousne	on	
		0	1	2	3	4	8	9	
b280	Sensation of pain (G)								
	Sensation of unpleasant feeling indicating potential or actual damage to see Inclusions: sensations of generalized or localized pain in one or more body partipain, aching pain; impairments such as myalgia, analgesia and hyperalgesia Sources of information:	t, pain i	n a derm						
	Case history Patient reported questionnaire Clinical Description of the problem:	al exam	ination	L	Tech	nical inv	estigatio	on	

			0	1	2	3	4	8	9
b2801	Pain in body part								
	Sensation of unpleasant feeling indicating potential or actual dam	age to s	ome bo	dy stru	cture fe	lt in a s	pecific p	oart, or	parts,
	of the body.								
	Sources of information:								
	Case history Patient reported questionnaire	Clinica	l examir	nation		Tech	nical inv	estigatio	n
	Description of the problem:								
			0	1	2	3	4	8	9
b310	Voice functions								
	Functions of the production of various sounds by the passage of		_	-					
	Inclusions: functions of production and quality of voice; functions of pho impairments such as aphonia, dysphonia, hoarseness, hypernasality ar			idness a	ind othe	r qualitie	es of void	ce;	
	Exclusions: mental functions of language (b167); articulation functions		asanty						
	Sources of information:	•
